2015		HURRAY! Became first ever manufacturer of CE certified, Star Rated Sanitaryware Products in India. Forayed into water heater segment and made SRK the brand ambassador.
2016-2017		Launched the one of its kind digital innovation Hindware Dreambath Mobile App Launched the super premium brand - Alchymi curated by Manish Malhotra Repositioned Hindware as start with the expert with mega SRK campaign

HSIL BRAND

Innovation

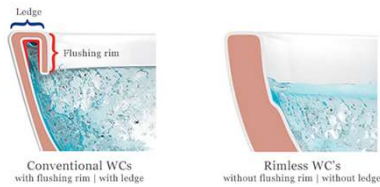

Many 'Firsts' in the Industry...

- Foot operated 1.5 Ltrs. Flushing EWC Model – Nano One Piece EWC
- Waterless Urinal in India– Aquafree Urinal
- Water Saving Dual Flush (3/6 & 2/4 Ltrs.) products
- Water Star Rated Products certified by IAPMO- USA'
- Rimless EWC with Integrated Jet Nozzle
- EWC with Aquasheet Flushing – Amazon Aquahseet
- Wall Mounted EWC with Vortex Flushing - Splendor Vortex
- Kids Series Bathroom –Poncho
- Soft Close & Quick Release & Re-Fit Systems in EWC Seats
- Cistern with patented Built-in Air Freshener Slot

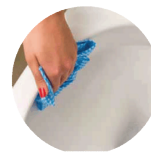

Rimless

A design innovation and marvel : Clear smooth lines in a seamless design with no scope of unglazed area unlike box rim design & half rim design

Design Innovation – Product Benefit

- Remove scope of unglazed part result easy cleaning & better hygiene
- Superior & more powerful swirling motion flush
- A quick wipe-over with a cloth would produce sparkling results every time
- Smart fit slow falling seat cover

EASY CLEANING

SUPERIOR FLUSH

ENVIRONMENT FRIENDLY

Vortex

For the first time in India Hindware launched Vortex flushing technology in Wall mounted EWCs-Splendor Vortex WM EWC with powerful flushing provides hygiene with effortless cleaning

Design Innovation – Product Benefit

- Powerful flushing technology which ensures hygiene and water efficiency
- Precisely placed two powerful jets of water from inside the bowl create a whirlpool effect that cleans the entire surface
- Rinses the bowl completely with a sustained swirling water
- Clean design with completely concealed trap and rag bolt area
- Durable duraplast slim soft close seat cover

Aqua-Sheet

Aqua-Sheet Flushing Technology is a disruptive innovation in the Sanitary ware industry that is:-

CLEANER – Ensures the entire surface area is rinsed clean

QUIETER – Quieter flushing than other EWC's

SMARTER – More effective and efficient use of water compared to standard flushing

Design Innovation – Product Benefit

- First EWC in India to have aquasheet flushing technology
- Ensures the entire surface area is rinsed clean
- Quieter flushing than other EWC's
- More effective and efficient use of water compared to standard flushing

Touchfree

For the first time in India, Hindware is proud to launch its Touchfree flushing technology. A revolutionary new way that lets you flush with a simple wave of the hand.

Design Innovation – Product Benefit

- Touchless EWC has a Touchfree kit in the cistern that senses your hand & flushes the toilet
- 4AA batteries are replaceable. It does not require any plumber or technician
- Just hold your hand over tank sensor to activate the flush
- NO TOUCH means NO GERMS to pick or leave behind
- One Pc available with both manual / Touchfree flushing
- A single hand Touchfree flushing to ensure hygiene

Star Rated _ Product Portfolio

Water is life and yet we flush down most of it.

World Bank predicts, by 2025, two thirds of the world population will run short of fresh water. Toilets take up to 30% of the total household water consumption. We must all make our efforts in conserving it. That's why, we, at Hindware persistently endeavour to come up with new age technologies that can reduce the consumption of water, efficiently. Here is your chance to bring down this number as we introduce India's first and largest collection of Water Star Rated* EWCs that saves 65,000** litres of water every year. Switch to Hindware and work towards a greener world.

Explore our collection of EWCs that saves over 65,000** litres of water, every year.

Star Rated _ Product Portfolio

Bringing to you

INDIA'S FIRST AND LARGEST RANGE OF WATER STAR RATED PRODUCTS.

Wide Range for Water Saving Solution

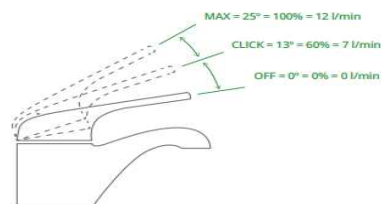

Water saving solutions

TEMPERATURE LIMITER FUNCTION (TR)

Thedra cartridge has an optional ring called TR that allows limiting maximum temperature in 7 selectable stops, enabling an anti-scalding safety feature.

Easier control of water flow thanks to Due technology, which presents a slight resistance to indicate that the fitting is using approximately a 50% of its flow. This feature allows **saving up to 54% of daily water consumption**.

TEMPERATURE & FLOW LIMITER FUNCTION (TRN)

TRN technology, in addition to limit temperature, allows water saving at the same time thanks to a flow limiter.

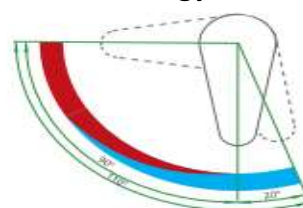

The flow can be limited thanks to the screw located in the cartridge lever. By turning the screw, the flow obtained will be reduced, **saving up to 22% of daily water consumption**.

Available in selected models, few models placed on order***

Water saving solutions

Cold start Technology

The lever is in cold position by default, **saving up to 10% from the household energy consumption** related to plumbing products.

Flow Regulated Aerators

Hindware **SCP series** products come with flow regulator aerator which helps to produce a precisely controlled aerated or laminar stream or a spray to meet Code and Standard requirements and save water and energy.

Saves upto 80% of water and never exceeds 5.8 litres per minute

Available in selected models, few models placed on order***

Water saving solutions

Air Infused Over showers and Hand Showers

These showerheads and hand Showers pull air into their heads and then infuse the air into the water. This results in larger water droplets that coat the skin and soak the hair.

In short, less water is used but the function of the showerhead is not sacrificed.

Save upto 60% of water

Additional Flow Regulator

Further savings can be achieved with the flow regulator technology for handheld and overhead shower heads which restrict water flow to only 6 litres per minute. Suitable for both domestic and commercial applications.

Available in selected models, few models placed on order***
